

I cant believe that You could consider any effort to diminish a do not call list. I have the constitutional right to the pursuit of happiness, which means I should have the right to My privacy and only people I give My phone number too should ever be allowed to call ME. This includes Political Parties,Non Profits,and companies making money sending faxes using My ink and paper without my Permission. I also do not want My cell phones to ever be given outfor this purpose. If ypu have any questions of ME You have my permission to call at 973 426 9070 or email at douglas.zellman@verizon.net
